- ✓ **Multi Location Support**
- ✓ **Rapid Deployment**
- ✓ **Configurable Alerts & Approval**

Capture Leads

Capture enquiries from multiple sources and centralize prospects for effective follow-up.

Track Opportunities

Monitor sales pipeline progress, forecast revenue, and improve conversion rates.

Tailored Catalogs

Share personalized digital catalogs with products, pricing, and customer-specific offerings.

Generate Quotations

Create professional quotations quickly with approvals, discounts, and version tracking.

Convert Orders

Seamlessly convert approved quotations into sales orders with inventory validation.

Manage Inventory

Track stock levels, movements, availability, and replenishment across warehouses.

Dispatch Products

Plan, manage, and monitor product dispatches for timely customer deliveries.

Track Payments

Monitor receivables, payment collections, outstanding balances, and customer credit exposure.

Manage Employees

Manage employee onboarding, attendance, leaves, performance, assets, and workforce productivity.
